MURRAY CITY CORPORATION
FINANCE & ADMINISTRATION

Daniel C. Snarr, Mayor

Don Whetzel, Director

801-264-2606 FAX 801-264-2517

November 17, 2006

Citizens of Murray City
The Honorable Mayor and
Members of the Municipal Council
Murray City Corporation
Murray, Utah 84107

The Comprehensive Annual Financial Report (CAFR) of Murray City Corporation (Murray City) for the fiscal year ending June 30, 2006, is submitted herewith. Utah state law requires that 'the Finance Director in cities of the first and second class shall present to the governing body an annual financial report prepared in conformity with generally accepted accounting principals (GAAP), and audited in accordance with generally accepted auditing standards by a firm of licensed, certified public accountants. This report, which fulfills these requirements, was prepared by the Murray City Finance Division.

This report consists of management's representations concerning the finances of Murray City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Murray City government has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Murray City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, Murray City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Murray City's financial statements have been audited by Hansen, Bradshaw, Malmrose and Erickson, P.C., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Murray City for the fiscal year ended June 30, 2006, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Murray City's financial statements for the fiscal year ended June 30, 2006, are fairly presented in conformity with GAAP. The report of the independent auditor is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD & A). This letter of transmittal is designed to complement MD & A and should be read in conjunction with it. The Murray City's MD & A can be found immediately following the report of the independent auditors.

Profile of the Government

Murray City, incorporated in 1902, is located in the central portion of Salt Lake County, approximately 8 miles south of Salt Lake City. Murray City currently occupies a land area of about 11 square miles and serves a population of about 45,000. Murray City is empowered to levy a property tax on both real and personal properties located within its boundaries. It is also empowered by state statute to impose a 1% local option sales tax on all retail sales.

Murray City has operated under the strong mayor-council form of government since 1982. Policy-making and legislative authority are vested in the City Council which is made up of five members elected by district. The City Council is responsible, among other things, for passing ordinances, adopting the budget, approving appointments to committees and approving the department heads appointed by the Mayor. The Mayor, who is full time, is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government and for appointing the heads of the various departments. The City Council is elected on a non-partisan basis with members serving on a staggered four year term basis. The Mayor is elected at-large for a four year term.

The City provides a full range of services. These services include police and fire protection; sanitation services, the construction and maintenance of highways, streets, and infrastructure; recreational activities and cultural events. In addition to general government activities, the governing body controls the Water Fund, the Waste Water Fund, the Power Fund, the Solid Waste Management Fund, the Telecommunications Fund, and the Murray Parkway Recreation Fund; therefore, these activities are included in the reporting entity. However, the Murray City School District has not met the established criteria for inclusion in the reporting entity, and, accordingly, is excluded from this report.

The annual budget serves as the foundation for Murray City's financial planning and control. All funds of the City are required to submit requests for appropriations to the Mayor on or before the third Monday in February each year. The Mayor uses these requests as the starting point for developing a tentative budget. The Mayor then presents this tentative budget to the City Council for review by the second Tuesday of April. The City Council is required to hold a public hearing on the tentative budget and to adopt a final budget no later than June 20th. The appropriations budget is prepared by fund, function (e.g. public safety), and department (e.g. police). With the consent of the budget officer, department heads may make transfer of appropriations within a department. Transfer of appropriations between departments requires the approval of the City Council. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. The level of budgeting control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the departmental level within an individual fund.

Factors Affecting Financial Conditions

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Murray City operates.

Local Economy. Murray City currently enjoys a good economic environment and local indicators point to a slightly improving environment in the coming year. Murray City is a major retail center in Salt Lake County with a regional mall, nine major automobile dealerships and several big box retailers. The City expects fair economic growth over the next three to four years with the construction of additional retail and office space and the construction of a \$360,000,000 regional medical center by Intermountain Health Care.

Long-term financial planning. Murray City has several capital construction projects in its five year plan; including \$9,550,000 to acquire, upgrade and construct various distribution, transmission and substation facilities of the Murray City electrical system. The City issue \$9,300,000 in Electric Revenue Bonds in 2004 to finance most of the costs of this project. The City will continue to use General Fund monies to construct, repair and maintain city roads in accordance with the pavement management plan.

Cash Management policies and practices. Murray City has entered into agreements with two major Utah banks where the balances in checking accounts are transferred to an Automatic Repurchase Agreement at the end of each banking day. These agreements allow the City to earn interest on all idle cash. All other cash temporarily idle during the year was invested in the United States Treasury and Federal Agency Money Market accounts and the Utah Treasurer's Investment Fund. All investments are considered short term and can be redeemed in three business days. The average yield on investments was 4.18 percent for FY 06. Because all the City's investments are very short term there is minimal difference between the fair market value of its investment and its carrying value.

Risk Management. Murray City has employed a full time Health and Safety Manager for a number of years and uses various risk control techniques to minimize accident-related losses. Murray City is fully insured for workmen's compensation, health, commercial property and automobile liability coverage. Murray City maintains a \$250,000 deductible on its general liability policy and is fully self-insured for vehicle physical damage and unemployment compensation coverage.

Pension and other post-employment benefits. Murray City is a mandatory participant in the state-wide Utah Retirement System (URS), a defined benefit pension plan. Each year the URS engages an independent actuary to determine the contributory rate which must be made to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. Murray City is legally required to make this actual determined contribution to pension plans in which the City participates. As a result of URS conservative funding policy, the Contributory System is 91.1% funded, the Non-contributory Retirement System is 92.3% funded, the Public Safety Retirement System is 88.3% funded and the Firefighters Retirement System is 105.5% funded. We expect all Retirement Systems which are currently not fully funded to achieve full funding within the next ten years.

Murray City does not provide any material post-retirement health and dental care benefits for its retirees and their dependents.

Awards and Acknowledgments

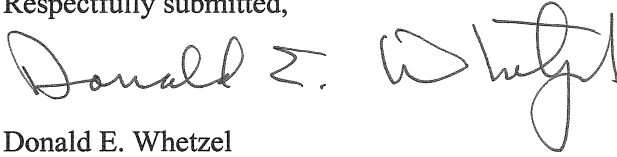

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the government for its comprehensive annual financial report for the fiscal year ended June 30, 2005. This was the twenty-fifth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated

services of the entire staff of the Finance Division. I would like to express my appreciation to all members of my staff who assisted in and contributed to its preparation. Credit must also be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of Murray City's finances.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Donald E. Whetzel". The signature is fluid and cursive, with the first name "Donald" being the most prominent.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Honorable Mayor and Members of the City Council
Murray City Corporation, Utah

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Murray City Corporation, Utah (the City), as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Murray City Corporation, Utah, as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2006, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 11-18 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison information, and statistical tables are presented for purposes of additional analysis are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Hansen, Bradshaw, Malmrose & Erickson, P.C.

November 8, 2006

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Murray City Corporation, we offer readers of the Murray City financial statements this narrative overview and analysis of the financial activities of Murray City for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets of Murray City exceeded its liabilities at the close of the most recent fiscal year by \$134,328,355 (net assets). Of this amount, \$37,553,324 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- Murray City's total net assets increased by \$26,849,971. Approximately 90% of this increase is due to inclusion of infrastructure as assets within the governmental funds..
- As of the close of the current fiscal year, Murray City's governmental funds reported combined ending fund balances of \$12,585,273, an increase of \$1,012,153 in comparison with the prior year. Approximately 74 percent of this total amount, \$9,352,508, is *available for spending* at the government's discretion (*unreserved fund balance*).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$7,781,070 or 25 percent of total general fund expenditures.
- Murray City's total bonded debt decreased by \$2,670,000 (5 percent) during the current fiscal year.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to Murray City's basic financial statements. Murray City's basic financial statements comprise three components:

1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of Murray City's finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of Murray City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of Murray City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Murray City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of Murray City include general government, public safety, highways and public improvements, parks and recreation, library and community and economic development. The business-type activities of Murray City include a Water Fund, Wastewater Fund, Power Fund, Murray Parkway Recreation Fund, Solid Waste Management Fund and Telecommunications Fund.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Murray City, like any other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Murray City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Murray City maintains eight individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund which is considered to be a major fund. Data from the other seven governmental funds are combined into a single aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

Murray City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds. Murray City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Murray City uses enterprise funds to account for its Water Fund, Waste Water Fund, Power Fund, Murray Parkway Recreation Fund, Solid Waste Management Fund and Telecommunications Fund. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among Murray City's various functions. Murray City uses internal service funds to account for maintenance of its vehicles and for its self insurance programs. Because both of these services predominantly benefit government rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water Fund, the Waste Water Fund, and for the Power Fund, all of which are considered to be major funds of Murray City.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of Murray City, assets exceeded liabilities by \$134,328,355 at the close of the most recent fiscal year.

By far the largest portion of Murray City's net assets (70 percent), reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. Murray City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although Murray City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

MURRAY CITY'S Net Assets (In thousands)						
	Governmental Activities		Business-type Activities		Total	
	2006	2005	2006	2005	2006	2005
Current and other assets	\$ 28,453	\$ 25,021	\$ 26,920	\$ 28,616	\$ 55,373	\$ 53,637
Capital assets	67,084	45,618	72,422	70,192	139,506	115,810
Total assets	95,537	70,639	99,342	98,808	194,879	169,447
Long-term liabilities outstanding	14,803	16,053	32,511	33,988	47,314	50,041
Other liabilities	5,917	5,068	7,319	6,860	13,237	11,928
Total liabilities	20,720	21,121	39,830	40,848	60,551	61,969
Net assets:						
Invested in capital assets, net of related debt	52,275	29,542	42,286	39,194	94,561	68,736
Restricted	1,900	1,899	314	314	2,214	2,213
Unrestricted	20,642	18,077	16,911	18,453	37,553	36,530
Total net assets	\$ 74,817	\$ 49,518	\$ 59,511	\$ 57,961	\$ 134,328	\$ 107,479

An additional portion of Murray City's net assets (1.6 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net assets* (\$37,553,324) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, Murray City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

There was an increase of \$26,849,971 in net assets of Murray City during the current fiscal year. The primary reason for increase in net assets was the inclusion of infrastructure assets within the governmental funds.

Governmental activities. Governmental activities increased Murray City's net assets by \$25,298,947 thereby accounting for 94% of the total growth in the net assets of Murray City. Key elements of this increase are as follows:

MURRAY CITY'S Changes in Net Assets
(In thousands)

	Governmental Activities		Business-type Activities		Total	
	2006	2005	2006	2005	2006	2005
Revenues:

- Property taxes increased by \$2,338,401 (38 percent) during the fiscal year as it was necessary to raise the property taxes for the General Fund to offset an expected reduction in sales taxes caused by a change in the sales tax distribution calculation enacted by the Utah State Legislature.
- General sales tax and energy sales taxes increased by \$1,438,650 (10 percent) due to a stronger local economy and a increase in the price of natural gas.
- Highways and public improvements increased by \$3,706,254 (99 percent) due to the inclusion of depreciation as an expense for the City's infrastructure assets.
- For the most part, increases in expenses closely paralleled inflation and growth in the demand for services.

Financial Analysis of the Government's Funds

As noted earlier, Murray City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of Murray City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing Murray City's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, Murray City's governmental funds reported combined ending fund balances of \$12,585,273, an increase of \$1,012,153 in comparison with the prior year. Approximately 74 percent of this total amount or \$9,352,508 constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed to pay for debt service, to generate income to pay for the perpetual care of the municipal cemetery and for a variety of other restricted purposes.

The general fund is the chief operating fund of Murray City. At the end of the current fiscal year, unreserved fund balance of the general fund was \$7,781,070, while total fund balance was \$9,061,070. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 24.7 percent of total general fund expenditures, while total fund balance represents 28.8 percent of that same amount. The fund balance of Murray City's general fund increased by \$1,082,649 during the current fiscal year.

Proprietary funds. Murray City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Water Fund at the end of the year amounted to \$3,127,630, in Waste Water Fund, unrestricted net assets amounted to \$1,422,563 and for the Power Fund, unrestricted net assets amounted to \$11,944,788.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were relatively minor (\$720,000 increase in appropriations) with the Personnel receiving a \$10,000 increase, Building Inspection \$35,000, Class C Road Program \$515,000 and Road Construction \$160,000 in increases. These increased allocations were funded by an increase in sales tax revenue of \$215,000 and an appropriation of \$515,000 from the Class C Road Reserved Fund Balance.

Capital Asset and Debt Administration

Capital assets. Murray City's investment in capital assets for its governmental and business-type activities as of June 30, 2006 amounts to \$139,506,172 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The total change in Murray City's investment in capital assets for the current fiscal year was 20.5 percent (a 47.0 percent increase for governmental activities and a 3.2 percent increase for business-type activities). Information on the City's capital assets is presented in Note 4 to the statements.

Major capital asset events during the current fiscal year included upgrade of the electrical transmission system from 47Kv to 138Kv for \$4,253,787, various road projects for \$2,517,415 and recording prior years infrastructure with a book value of \$24,249,708.

Long-term debt. At the end of the current fiscal year, Murray City had total bonded debt outstanding of \$48,960,000. All of Murray City's debt represents bonds secured solely by specified revenue sources (i.e. revenue bonds).

MURRAY CITY'S Outstanding Debt
(In thousands)

	Governmental Activities		Business--type Activities		Total	
	2006	2005	2006	2005	2006	2005
Revenue bonds	\$15,510	\$16,810	\$33,450	\$34,820	\$48,960	\$51,630

Murray City's total bonded debt decreased by \$2,670,000 (5.2 percent) during the current fiscal year.

Murray City's Electric Revenue Bonds Series 2001 and Series 2004, Water and Sewer Revenue Bonds, Excise Tax Revenue Bonds, Municipal Building Authority Lease Revenue Bonds Series 1997 and Series 2001 are rated Aaa by Moody's and are insured. The City's Sales Tax Revenue Bond Series 2002 are not rated. In May 2002, Murray City issued \$1,865,000 in Sales Tax Revenue Bonds Series 2002 to finance capital improvements to various parks within the City. As allowed by state law the Redevelopment Agency of Murray City will make all principal and interest payments on these bonds over the next 10 years.

In November of 2004, Murray City issued \$9,300,000 in Electric Revenue Bonds Series 2004 to finance the upgrade of the electric transmission system from 46 kilovolts to 138 kilovolts. This upgrade has commenced and will be completed in the fall of 2007.

State statutes limit the amount of debt a governmental entity may issue to 8 percent of its reasonable fair cash value of property. The current debt limitation for Murray City is \$309,040,000, which is significantly in excess of Murray City's outstanding debt.

Additional information on Murray City's long-term debt can be found in note 4.

Economic Factors and Next Year's Budget and Rates

- The unemployment rate for Murray City is currently 3.1 percent, which is a decrease from a rate of 4.6 percent a year ago. This compares to the state's average unemployment rate of 3.1 percent and the national average of 4.6 percent.
- The occupancy rate of the government's retail stores and business offices has remained in the high 90 percent for the past three years.
- Inflationary trends in the region compare favorably to national indices.

All of these factors were considered in preparing Murray City's budget for the 2007 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of Murray City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Finance Director, 5025 South State Street, Murray City, Utah, 84107.

MURRAY CITY CORPORATION
Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended June 30, 2006

Amounts reported for governmental activities in the statement of activities (page 20) are different because:

Net change in fund balances - total governmental funds (page 22)	\$1,012,153
--	-------------

<p>Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.</p>	(2,790,334)
--	--------------

<p>Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.</p>	1,557,214
---	-----------

<p>The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transactions, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.</p>	1,265,462
---	-----------

<p>Some expenses in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.</p>	(89,199)
--	-----------

<p>Internal services funds are used by management to charge the costs of fleet management and risk management to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.</p>	<div style="border-top: 1px solid black; display: inline-block;">93,943</div>
--	---

The notes to the financial statements are an integral part of this statement.

MURRAY CITY CORPORATION
Notes to the Financial Statements
June 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The basic financial statements of Murray City Corporation (the City) have been prepared in conformity with accounting principles (GAAP) generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing accounting and financial reporting principles.

Financial reporting is based upon all GASB pronouncements, as well as the FASB Statements and Interpretations, APB Opinions and Accounting Research Bulletins that were issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. FASB pronouncements issued after November 30, 1989 are not followed in the preparation of the accompanying financial statements.

The City of Murray was incorporated November 25, 1902. The City operates under a strong Mayor Council form of government. As required by GAAP, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. The City is considered to be financially accountable for an organization if the City appoints a voting majority of that organization or there is a potential for that organization to provide specific financial benefits to or impose specific financial burdens on the City. The City is also considered to be financially accountable for an organization if that organization is fiscally dependent (i.e., it is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval from the City). The component units discussed below are included as part of the City's reporting entity as blended component units.

The Redevelopment Agency of Murray City (RDA) was established in 1976 to prepare and carry out plans to improve, rehabilitate and redevelop blighted areas within the City. The RDA is governed by a board of trustees composed of the City Mayor and members of the Municipal Council. Although it is a legally separate entity from the City, the RDA is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations of the RDA. The RDA is included in these financial statements as the Redevelopment Agency Special Revenue Fund. Separate financial statements are not issued for the RDA.

The Municipal Building Authority of Murray City Corporation (MBA) was established to finance and construct municipal buildings that are then leased to the City. The MBA is governed by a five-member board of trustees composed of the Municipal Council. Although it is a legally separate entity from the City, the MBA is reported as if it were part of the primary government because of the City's ability to impose its will upon the operations of the MBA. The MBA is included in these financial statements as the Municipal Building Authority Special Revenue Fund. Separate financial statements are not issued for the MBA.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the City and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those which are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The use of financial resources to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as an expenditure. Proceeds of long-term debt are recorded as a liability in the government-wide financial statements, rather than as an other financing source. Amounts paid to reduce long-term debt of the City are reported as a reduction of the related liability, rather than an expenditure in the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt-service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Sales taxes, use taxes, franchise taxes, and earned but unreimbursed state and federal grants associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Property taxes are measurable as of the date levied (assessed) and are recognized as revenues when they become available. Available means when due, or past due, and received within the current period or collected soon enough thereafter (within 45 days) to be used to pay liabilities of the current period. All other revenues are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except for those required to be accounted for in another fund.

The City reports the following major proprietary funds:

The Power Fund accounts for the activities of the City's electrical production and distribution operations.

The Water Fund accounts for the activities of the City's water production, treatment and distribution operations.

The Wastewater Fund accounts for the operation and maintenance of the City's sewer collection system and sewage treatment.

Additionally, the City reports the following fund types:

Internal Service funds to account for the self-insurance activities of the various funds throughout the City and to account for the costs of operating a maintenance facility for vehicles and equipment owned by the City.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments to the General Fund by various enterprise funds for the providing of administrative and billing services for such funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of all enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds includes the cost of sales and services. Operating expenses for enterprise funds includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Assets or Equity

Cash, Deposits and Investments Cash includes cash on hand, demand deposits with banks and other financial institutions, and deposits in other types of accounts or cash management pools that have the general characteristics of demand deposit accounts. City policy allows for the investment of funds in time certificates of deposit with federally insured depositories, investment in the Utah Public Treasurer's Investment Fund and other investments allowed by the State of Utah's Money Management Act. Investments are reported at fair value. The State Treasurer's Investment Fund operates in accordance with state laws and regulations. The reported value of the Fund is the same as the fair value of the Fund shares.

Cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Investments with maturities of three months or less when purchased meet this definition.

Receivables and Payables Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to or due from other funds". In the Power, Water, Wastewater, and Solid Waste Management funds, the City records utility revenues billed to customers when meters are read on a monthly basis. Unbilled service accounts receivable at June 30, 2006 were estimated based on July billings and are included in the operating revenues and accounts receivable at year-end.

Inventories and Prepaid Items Inventories of materials and supplies in the proprietary funds, consisting principally of materials used in the repair of the transmission, distribution, collection and treatment systems, are valued at cost and accounted for on a first-in, first-out basis (FIFO). Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Capital Assets Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

As permitted by GASB Statement No. 34, the City had not retroactively recorded infrastructure assets. During the year ended June 30, 2006, the City retroactively recorded infrastructure assets acquired before June 30, 2001. GASB Statement 34 required prospective reporting of infrastructure from June 30, 2002, but allowed

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Assets, Liabilities, and Net Assets or Equity (Continued)

additional time for recording of infrastructure constructed or acquired between June 30, 1980 and June 30, 2001. The pre June 30, 2001, infrastructure has been booked and reported in the government-wide financial statements as prescribed by Statement 34. The infrastructure assets, net of depreciation, are shown on the Statement of Activities as a prior period adjustment. Prior year comparative data in other areas of this report have been modified to reflect the retroactive recording of the infrastructure.

Property, plant, and equipment is depreciated using the straight-line method over the following estimated useful lives:

Building and improvements	10 to 40 years
Infrastructure	20 to 50 years
Machinery and equipment	4 to 10 years
Furniture and fixtures	5 to 10 years
Water and sewer lines	33 years

Compensated Absences For governmental funds amounts of vested or accumulated vacation leave and comp time that are not expected to be liquidated with expendable available financial resources are reported as liabilities in the government-wide statement of net assets and as expenses in the government-wide statement of activities. No expenditures are reported for these amounts in the fund financial statements. Vested or accumulated vacation leave and comp time of proprietary funds is recorded as an expense and a liability of those funds as the benefits accrue to the employees and are thus recorded in both the government-wide financial statements and the individual fund financial statements. Sick pay amounts are charged to expenditures when incurred. Employees may accumulate sick leave without limitation. Accumulated sick leave is paid to employees upon retirement, with a limitation of 25 percent of accumulated hours. Employees that are terminated for reasons other than retirement are not paid for accumulated sick leave. The liability for accumulated sick pay amounts is not accrued, as the amount is insignificant.

Long-Term Obligations In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums, discounts, and issuance costs are deferred and amortized over the life of the applicable debt. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Restricted Assets Restricted assets are comprised of cash restricted for future payments of principal and interest on debt service as well as unexpended portions of bonds issued for capital construction purposes.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

2. **RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS**

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between total governmental fund balances and net assets of governmental activities as reported in the government-wide statement of net assets. This difference primarily results from the long-term economic focus of the statement of net assets versus the current financial resources focus of the governmental fund balance sheets.

Capital related items:

When capital assets (property, plant and equipment) that are to be used in governmental activities are purchased or constructed, the cost of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the City as a whole.

Cost of capital assets	\$134,147,296
Investment in joint venture	1,422,182
Accumulated depreciation	(67,063,240)
Total difference	<u>\$ 68,506,238</u>

Long-term debt transactions:

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the fund financials. All liabilities (both current and long-term) are reported in the statement of net assets. Balances at June 30, 2006 were:

Municipal Building Authority bonds	\$11,810,000
Sales tax revenue bonds	1,780,000
Excise tax revenue bonds	1,920,000
Capital lease	721,370
Interest payable on long-term debt	96,518
Compensated absences	<u>814,412</u>
Total difference	<u>\$17,142,300</u>

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

2. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

Explanation of Certain Differences Between Governmental Fund Operating Statements and the Statement of Net Activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. The first element of this reconciliation states that capital outlays are reported in the governmental funds as expenditures while the government-wide statement of activities allocates these costs over the useful lives of the assets as depreciation. While shown in the reconciliation as the net difference, the elements of this difference are as follow:

Capital outlay	\$1,336,859
Depreciation expense	(4,127,193)
Net difference as reported	<u>(\$2,790,334)</u>

3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Information

Prior to May 1, the Mayor submits to the Municipal Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the proposed sources of revenues.

Between May 1 and June 20, the Municipal Council reviews and adjusts the Mayor's proposed budget. On or before June 20, a public hearing is held and the budget is legally adopted through passage of a resolution.

After the budget is adopted, the Finance Director may transfer any unencumbered or unexpended appropriation amount from one expenditure account to another within a department. The Municipal Council may, by resolution, transfer any unencumbered or unexpended appropriation amount from one department in a fund to another department within the same fund.

When the Municipal Council determines that an emergency exists, such as widespread damage from fire, flood, or earthquake the Municipal Council may increase the budget of the General Fund by resolution or a public hearing.

Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, and Capital Projects Fund. In the General Fund, budgets are adopted at the functional level and budgetary control is exercised at the departmental level. For Special Revenue Funds, budgets are adopted and control is exercised at the level of total expenditures for each individual fund.

Annual budgets for the General Fund, all Special Revenue Funds (Municipal Building Authority Fund, Library Fund, Redevelopment Agency Fund, Community Development Fund and Economic Development Fund), and the Capital Projects Fund were legally adopted by the City and are prepared on the modified-accrual method of accounting.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

3. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

Budgetary Information (Continued)

Encumbrances (commitments related to unperformed purchase orders or contracts for goods or services) are used only as an internal management control device during the year. The City does not have any encumbrances outstanding at year end since appropriations lapse at year end. However, encumbered amounts are generally reappropriated and honored as part of the following year's budget.

Although Utah State law requires the initial preparation of budgets for all City funds (both governmental and proprietary), it only requires the reporting of actual versus such budgets for governmental funds.

Tax Revenues

Property taxes are collected by the Salt Lake County Treasurer and remitted to the City in two to three installments in November, December, and January of each fiscal year and a final settlement by March 31st. Taxes are levied and are due and payable on November 1st and delinquent after November 30th of each year at which time they become liens if not paid. An accrual of delinquent current and prior year's property taxes beyond that which was received within 60 days after fiscal year end has not been made, as the amounts are not deemed to be material. An accrual for current year property taxes estimated to be collected the following November and December is made each year.

Sales taxes are collected by the Utah State Tax Commission and remitted to the City monthly. An accrual has been made for all taxes received by the State for the period ended June 30th and thus due and payable to the City.

Franchise taxes are charged to various utility companies doing business with the City including telephone, cable television, gas utility, and electric utility companies. The fees are remitted on a monthly, quarterly, semi-annual, or annual basis. An accrual has not been made for fees due and payable to the City at June 30th as the amounts are not deemed to be material.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS

Deficit Fund Equity and Excess Expenditures Over Appropriations

The Telecommunications Enterprise Fund had a deficit net assets of \$32,217 at June 30, 2006. This fund started operations in 2001 and will eliminate this deficit in the next fiscal year through lease or sale of the City's fiber optic backbone ring. The Central Garage Internal Service Fund has a deficit net assets of \$76,881 at June 30, 2006. This deficit will be eliminated by increased charges for services in future years.

Deposits and Investments

Utah State law establishes the rules and regulations for deposits and investments and is known as the Utah Money Management Act. The Act established the Money Management Council that promulgates additional rules and determines which financial institutions may qualify to hold deposits and investments for state and local entities. The City has complied with the Utah Money Management Act and rules of the Money Management Council with regard to deposits and investments.

As of June 30, 2006, the City's demand deposits amounted to \$1,887,022.

As of June 30, 2006, the City had investments in the Utah Public Treasurer's Investment Fund of \$26,044,350. The fund is not rated and the weighted average maturity was less than 90 days. The City also held investments in U.S. Government securities of \$1,379,774.

Custodial credit risk - deposits. This is the risk that in the event of a bank failure, the City's deposits may not be returned. As of June 30, 2006, \$3,893,895 of the City's \$4,093,895 bank balance was exposed to custodial credit risk because it was uninsured and uncollateralized. The Utah Money Management Act does not require deposits to be insured or collateralized and the City has no formal policy regarding deposit credit risk. The Act requires that the City keep deposits in a qualified depository, which the City has done.

Custodial Credit Risk - Investments. This is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments that are in the possession of an outside party. The City has no formal policy regarding custodial credit risk for investments. Money invested in the Utah Public Treasurer's Investment Fund is pooled with many other state and local entities, and is managed by the Utah State Treasurer. The Fund is not categorized as to custodial credit risk.

Interest rate credit risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's policy for managing its exposure to fair value loss from changes in interest rates is to follow the Utah Money Management Act and only invest in instruments that mature in one year or less. Investment within the Public Treasurer's Investment Fund have a weighted average maturity of less than ninety days.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

Deposits and Investments (Continued)

Credit risk is the risk that an issuer will not fulfill its obligations. The City policy is consistent with and complies with the Utah State Money Management Act. Investment is limited to U.S. Treasuries, U.S. Government Agency instruments, Utah Public Treasurer's Investment Fund, and other instruments that are rated A or higher by Standard & Poor's or Moody's. The City only invested in the Utah Public Treasurer's Investment Fund and U.S. Treasury securities during the year.

Concentration of credit risk. City policy requires diversification and limits the amount that may be invested in the same company. First, the City may not invest more than 20% of its idle funds outside of the Utah Public Treasurer's Investment Fund. Second, not more than 10% of the total portfolio may be invested in a single company's credit instruments. The Utah Public Treasurer's Investment Fund is highly diversified and must comply with various rules of the Utah State Money Management Act and Money Management Council.

The deposits and investments described above are included on the government-wide statement of net assets as follows:

Cash and cash equivalents	\$21,882,534
Restricted cash	6,048,838
Restricted investments	<u>1,379,774</u>
	<u>\$29,311,146</u>

Deposits

Enterprise fund deposits are deposits the City requires from residential renters and any business receiving a utility connection. The deposit is refundable after 2 years for residential and business customers upon satisfactory payment history.

Receivables

Receivables as of year end for the City's individual major funds and nonmajor and internal service funds, in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Water</u>	<u>Waste Water</u>	<u>Power</u>	<u>Nonmajor Funds</u>	<u>Total</u>
Receivables:						
Taxes	\$5,278,000	\$ ---	\$ ---	\$ ---	\$1,282,000	\$ 6,560,000
Accounts and other	437,351	671,460	267,568	3,392,411	40,833	4,809,623
Special assessments	1,753	---	---	---	---	1,753
Intergovernmental	<u>2,663,144</u>	<u>---</u>	<u>111,150</u>	<u>---</u>	<u>199,600</u>	<u>2,973,894</u>
Gross receivables	8,380,248	671,460	378,718	3,392,411	1,522,433	14,345,270
Less: allowance for uncollectibles	<u>---</u>	<u>(9,125)</u>	<u>(6,882)</u>	<u>(118,173)</u>	<u>---</u>	<u>(134,180)</u>
Net total receivables	<u>\$8,380,248</u>	<u>\$662,335</u>	<u>\$371,836</u>	<u>\$3,274,238</u>	<u>\$1,522,433</u>	<u>\$14,211,090</u>

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the government funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Note receivable (General Fund)	\$ 2,230,331	\$ ---
Sales taxes receivable (General Fund)	1,397,867	---
Property taxes receivable (General Fund)	5,278,000	---
Property taxes receivable (Library Fund)	1,282,000	---
Special assessments not yet due (General Fund)	1,753	---
Various prepayments received (General Fund)	<u>---</u>	<u>123,957</u>
Total deferred/unearned revenue for governmental funds	<u><u>\$10,189,951</u></u>	<u><u>\$123,957</u></u>

Notes Receivable

General Fund notes receivable include a \$2,230,331 third party promissory note for the sale of property known as the Sports Mall. The note has an interest rate of nine percent with monthly principal and interest payments of \$26,796. Under the note, the City will receive monthly installment payments through May 15, 2017 at which time all unpaid principal and interest become due.

		<u>\$2,087,807</u>

Investments in Joint Ventures

The City is a participant in several joint ventures listed below that generate financial resources through member assessments, surcharge taxes, or user fees. The City reflects its equity position (in the net resources of the joint ventures) in the funds which have the rights to such resources.

Trans-Jordan Cities The City has an approximate 9.32% ownership share in the Trans-Jordan Cities (the Association) joint enterprise. The City's equity in the net resources of the Association at June 30, 2006, is reported in the government-wide statement of net assets. The Association was organized in 1968 as a joint enterprise fund of the Cities of Sandy, Midvale, West Jordan, and Murray, Utah. The City of South Jordan, Utah joined the Association during fiscal year 1997. The cities of Draper and Riverton, Utah joined the Association during fiscal year 1998. The primary purpose of the Association is the operation, maintenance and control of a refuse dumping site east of Bingham Canyon in Salt Lake County. The City has no firm commitments to make additional equity investments in Trans-Jordan Cities.

The Association is governed by its Board of Directors. Under the organization agreement, the Board of Directors is composed of the Mayors, or their appointed representatives, of the participating cities. The Board of Directors appoints the management and staff of the Association and approves all financial matters such as the operating budget and usage fees.

Investments in Joint Ventures (Continued)

Separate audited financial statements for Trans-Jordan Cities may be obtained from Trans-Jordan Cities, Accounting Department at 10873 South 7200 West, South Jordan, UT 84095.

Central Valley Water Reclamation Facility The Waste Water Fund (an enterprise fund) has an approximate 5.6% ownership in the Central Valley Water Reclamation Facility (the Facility). The Facility, a separate legal entity and political subdivision of the State of Utah, was formed pursuant to the Utah Interlocal Co-operation Act. The Facility's membership consists of five special-purpose government entities and two cities. The Facility was formed to plan, construct and operate a regional sewage treatment facility for the benefit of the seven members. Members of the Facility are required to pay their proportionate share of monthly operating costs, construction costs and maintenance and administrative costs. The Facility is governed by its Board of Directors. Under the Organization Agreement, all seven members (one of whom is the City), are entitled to designate one of the Facility's seven directors. The City's share of operating, maintenance, administrative expenses and debt service amounted to \$966,519 in 2006. The Waste Water Fund made a net contribution of \$120,281 to the Facility in 2006 and recorded a \$646,403 loss on joint venture resulting in a net decrease in its investment in the Facility of \$526,122.

During 2005, the Facility issued \$30,500,000 of revenue bonds of a total of \$35,000,000 authorized. The City's share of the total obligation will be \$3,462,000 when all bonds are issued. The City is required to fund its proportionate share of debt service each year, which is included in the City's assessment from the Facility.

Separate compiled financial statements for Central Valley Water Reclamation Facility may be obtained from the Central Valley Water Reclamation Facility Accounting Department at 800 West Central Valley Road, Salt Lake City, UT 84119.

Interlocal Agreements

Utah Associated Municipal Power System (UAMPS) The Power Department is a member of the Utah Associated Municipal Power Systems (UAMPS). UAMPS, a joint action agency and political subdivision of the State of Utah, was formed by an Organization Agreement dated November 6, 1980, pursuant to the provisions of the Utah Interlocal Co-operation Act. UAMPS' membership consists of 34 municipalities, one joint action agency, one electric service district and one water conservancy district.

UAMPS is a legally separate entity, which possesses the ability to establish its own budget, incur debt, sue and be sued, and own and lease property. No other governmental units in Utah exercise significant control over UAMPS. As such, UAMPS is not a component unit as defined by the Governmental Accounting Standards Board in their Statement No. 14, "The Financial Reporting Entity".

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

UAMPS' purposes include planning, financing, developing, acquiring, constructing, improving, bettering, operating and maintaining of projects, or ownership interests or capacity rights therein, for the generation, transmission and distribution of electric energy for the benefit of its members.

As a member of UAMPS, the City has participated in various individual projects. The City acquired for \$45,662 an approximate five percent interest in the Hunter II power plant project. During the year ended June 30, 1990, the City acquired an approximate five percent entitlement in UAMPS' share of a transmission service project from Craig, Colorado to Mona, Utah (the Craig-Mona project) for \$1,805,428. The City acquired an additional 1.6 mega watts of plant capacity in the San Juan Generating Station Unit 4 for \$1,953,599 during 1994. These entitlement payments represent prepayment of future generation fees for the projects and are being amortized over the lives of the service contracts. The unamortized balance of prepaid generation and transmission fees at June 30, 2006 is \$2,350,513.

Under various power sales contracts, UAMPS' members are required to pay their proportionate share of all operation and maintenance expenses and debt service on the revenue bonds issued by UAMPS, and any other energy-related costs, as defined in the contract regardless of whether any power is supplied to the Power Fund. The City has no firm commitments to make additional equity investments in UAMPS or in any specified projects of AMPS.

Under the organization agreement, the four members with the greatest financial obligations to UAMPS, one of which is the City, are each entitled to designate one of UAMPS' directors. All other directors are selected from the representatives of the remaining UAMPS members.

Separate financial statements for UAMPS may be obtained from the Manager of Finance at 2825 East Cottonwood Parkway, Suite #200, Salt Lake City, UT 84121.

Valley Emergency Communications Center

The City is a member of the Valley Emergency Communications Center (the Center). The Center was organized June 30, 1988, as a joint enterprise between the City, Midvale City, Salt Lake County, Sandy City, South Jordan City, West Jordan City and West Valley City. The primary purpose of the Center is to fund and operate a communications center which handles communications and other services for the members, including police, fire, 911 service, dispatch and records services.

The Center is governed by a Board of Trustees consisting of one representative from each member appointed by the governing body thereof. The Center's activities are funded by a surcharge tax on telephones within each member's city and member assessments. The Board of Trustees sets assessments for all member agencies in amounts sufficient to provide the funds required by the annual budget. The Center determines the 911 assessments for the telephone users within the members' jurisdictions.

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

Separate audited financial statements for Valley Emergency Communications Center may be obtained from the Finance Director at 5360 South 5885 West, West Valley City, UT 84118.

DEA - Metro Task Force The City is a member and lead agency of the Drug Enforcement Administration (DEA) Metro Task Force (the Task Force). The Task Force is an interlocal co-operative organized to investigate and prosecute controlled substance offenders in the Salt Lake metropolitan area. The membership of the Task Force consists of sixteen Federal, State, County and Municipal law enforcement agencies. Activities of the Task Force are funded through federal and state grants, with no funds being provided by the participating members.

Separate audited financial statements for DEA-Metro Task Force may be obtained from Murray City Corporation, Office of Finance and Administration, 5025 South State Street, Murray, UT 84157-0520.

Capital Leases

The City has entered into lease agreements, as lessee, for financing the acquisition of equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. The assets acquired through capital leases are as follows:

	<u>Original Principal</u>	<u>Interest Rates</u>
Pierce fire truck	\$398,258	3.474%
Phone system	359,883	3.474%
Garbage truck	154,883	3.474%

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2006 were as follows:

<u>Year</u>	<u>Totals</u>
2007	\$196,273
2008	196,273
2009	196,273
2010	<u>196,273</u>
Total minimum lease payments	785,092
Less amount representing interest	(<u>63,722</u>)
Present value of minimum lease payments	721,370
Amount due within one year	<u>171,212</u>
Amount due after one year	<u><u>\$550.158</u></u>

Revenue Bonds

The City has issued bonds where the revenues and assets of the issuing fund are pledged as security for the bonds.

Under an agreement between the City and the Redevelopment Agency, the Redevelopment Agency will make all principal and interest payments on the Series 2002 sales tax bonds.

The Electric Series 2001 Revenue bonds trust indenture specifies a net revenue to debt service coverage ratio the Power Fund is required to maintain. The Power Fund met the debt service coverage requirement at June 30, 2006.

Other Information

Risk Management The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City's Retained Risk Reserve Fund (an internal service fund) accounts for and accumulates resources for uninsured loss. Under this program, the Retained Risk Reserve Fund (the Fund) provides coverage for up to a maximum of \$250,000 for each general liability claim. The City purchases commercial insurance for claims in excess of coverage provided by the Fund and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. **DETAILED NOTES FOR ALL FUNDS (CONTINUED)**

Contingent Liabilities Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims including amounts already collected, may constitute a liability of the applicable fund. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's counsel the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City is a participant of the Intermountain Power Agency (IPA), a separate legal entity established under the guidelines of the Utah Interlocal Co-operation Act. The IPA operates a power production plant near Delta, Utah for the benefit of its members. IPA has approximately \$5.1 billion of revenue bonds that are paid from the revenues received from participant charges. Under the terms of its original contract with IPA, the City is entitled and obligated to purchase four percent of the plant's power output. However, under a subsequent excess power sales agreement, the City transferred its power entitlement to certain California purchasers for the duration of the project unless the City recalls any or all of the entitlement. In recent years, the City sold most of its entitlement to the California purchasers. The City is liable for operating expenses and repayment of the outstanding bonds only in the event of a prolonged power outage (in excess of 24 months) and/or failure to perform under the agreement on the part of each of the California participants.

Commitments

The City entered into a Pledge and Loan Agreement with the Utah Telecommunications Open Infrastructure Agency (UTOPIA). UTOPIA is an interlocal cooperative created to finance, construct and operate a system of fiber optic communication lines in various cities in the state. UTOPIA would lease use of the fiber optic system to retail vendors of telephone, video and other digital services. The pledge commits the City to set aside and deposit funds as security in a debt service fund for the portion of the project related to the City. The maximum amount committed by the City was \$1,235,039 per year. Sales and use tax revenues have been pledged towards the payment of the City's share of the debt service reserve fund requirement, however, the pledge is junior to any previously pledged sales and use tax revenue. On July 1, 2007, the City will be required to deposit \$1,235,039 into the UTOPIA Series 2004 Bond Debt Service Reserve Fund. These funds will remain on deposit until the sooner of the bonds being retired or 20 years from July 1, 2007. The City will, if additional bonds are issued, be required to deposit additional funds into a bond debt service reserve fund. The timing of these additional pledged deposits depends on the timing of additional bond issues. These funds will remain on deposit until the sooner of the bonds being retired or 20 years from the date the City is required to pay the pledge into the debt service reserve fund.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

Conduit Debt Obligations From time to time, the City has issued Industrial Revenue Bonds (IRBs) to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2006, there have been ten series of Industrial Revenue Bonds issued. The aggregate principal amount payable could not be determined; however, their original issue amounts totaled \$97.0 million.

Redevelopment Agency In connection with the activities of the Redevelopment Agency (RDA), incremental tax revenues totaling \$781,187 were generated. The RDA was not required to pay any portion of this revenue to other taxing agencies. There is no outstanding debt of the RDA at June 30, 2006.

During the year ended June 30, 2006, funds expended by the RDA were limited to the categories of debt service, capital outlay and administration costs. Administrative costs totaled \$369,476, capital outlay costs totaled \$230,607, and debt service payments totaled \$107,815 for the year.

Employee Retirement Systems and Pension Plans The City contributes to the Local Governmental Contributory Retirement System, Local Governmental Noncontributory Retirement System, Public Safety Retirement System for Employers with Social Security Coverage, and the Fire Fighters Retirement System for Employers without Social Security Coverage, (hereafter referred to cumulatively as the Systems) which are cost-sharing multiple-employer defined benefit pension plans administered by the Utah Retirement Systems (URS). The Systems provide retirement benefits, annual cost of living adjustments, death benefits, and refunds to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953, as amended. The Utah State Retirement Office Act in Chapter 49 provides for the administration of the Systems under the direction of the Utah State Retirement Board (Board) whose members are appointed by the Governor. URS issues a publicly available financial report that includes financial statements and required supplementary information for the Systems.

A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, UT 84102 or by calling 1-800-365-8772.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

Funding Policy Plan members in the Local Government Contributory Retirement System are required to contribute 6.00 percent of their annual covered salary (all or part may be paid by the employer for the employee), and the City is required to contribute 7.08 percent of its annual covered salary. In the Local Government Noncontributory Retirement System the City is required to contribute 11.09 percent of its annual covered salary. In the Public Safety Retirement System for employers with Social Security coverage, the City is required to contribute 19.34 percent of its annual covered salary for members in the noncontributory division. In the Fire Fighters Retirement System for employers without Social Security coverage plan members are required to contribute 8.61 percent of its annual covered salary (all or part may be paid by the employer for the employee) and the City has no contribution requirement. The contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized by statute and specified by the Board.

The City's contributions in dollars to each of the Systems for the years ending June 30, 2006, 2005 and 2004, were equal to the required contributions for each year. The contribution amounts are as follows:

	<u>2006</u>	<u>2005</u>	<u>2004</u>
Local Governmental Contributory Retirement System	\$ 152,536	\$ 144,316	\$ 125,537
Local Governmental Noncontributory Retirement system	1,372,067	1,320,071	1,108,559
Public Safety Retirement System for Employers with Social Security Coverage	659,370	630,593	505,303
Fire Fighters Retirement System	221,296	219,769	197,945

Deferred Compensation Plan Under the URS, the City offers its employees a Deferred Compensation Plan (the Plan) in accordance with Internal Revenue Code Section 457. The Plan, available to all City employees, permits them to defer a portion of their salary until future years. The payment of deferred compensation is not available to employees until termination, retirement, death, or emergency. The City discontinued contributions to this plan in 2003.

Defined Contribution Plans The 401(k) plan provided by URS is a multiple-employer defined contribution plan. All employees of the City who participate in the URS contributory, noncontributory, or fire fighters system are eligible to participate in the plan. Employees are immediately 100 percent vested in their contributions to the plan. Employee contributions to the 401 (k) plan and the Deferred Compensation Plan are voluntary. Employer contributions are also voluntary and are intended to standardize the contribution rates for all full time employees participating in the URS. The City's contributions to the 401 (k) plan were \$690,021, \$665,456 and \$798,636 for the years ended June 30, 2006, 2004 and 2004, respectively.

MURRAY CITY CORPORATION
Notes to the Financial Statements (Continued)
June 30, 2006

4. DETAILED NOTES FOR ALL FUNDS (CONTINUED)

In addition to the URS plans, the City also participates in a 401 (a) plan provided by International City Management Association, a multiple-employer defined contribution plan. Only elected or appointed employees of the City are eligible to participate in this plan. Employees are fully vested upon contribution to the plan. Currently, there are three employees who participate in the plan. The City contributes to the plan on behalf of the employee. Employees are not eligible to make contributions. The contribution requirement for the year ended June 30, 2006 was \$45,625.

In addition to the pension benefits described above, the City provides post-retirement health care benefits in accordance with City policy, to all employees who retire from the City upon completing the requirements for the retirement plan participated in as detailed above. Currently there are 20 retirees who meet those requirements. The City pays 25% of the retirees' health care insurance premiums with the remaining 75% paid by the retirees on a pay-as-you-go basis. This past employment benefit is available until the retiree reaches the age of 65 at which time they are no longer eligible to participate. Terminated employees under the COBRA act are allowed to purchase the same insurance policy at their own expense for a period of 18 months. The City paid \$52,866 in premiums for retirees during the fiscal year ended June 30, 2006.

Murray City Corporation, Utah

Statistical Section

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents

- **Financial Trends**--these schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.
- **Revenue Capacity**--these schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.
- **Debt Capacity**--these schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.
- **Demographic and Economic Information**--these schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.
- **Operating Information**--these schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council
Murray City Corporation, Utah

We have audited the basic financial statements of Murray City Corporation, Utah (the City), as of and for the year ended June 30, 2006, and have issued our report thereon dated November 8, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance As part of obtaining reasonable assurance about whether the City's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that we have reported to management of the City in a separate letter dated November 8, 2006.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS ON STATE OF UTAH STATE LEGAL COMPLIANCE BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council
Murray City Corporation, Utah

We have audited the basic financial statements of Murray City Corporation, Utah (the City) for the year ended June 30, 2006, and have issued our report thereon dated November 8, 2006. As part of our audit, we have audited the City's compliance with the requirements governing types of services allowed or unallowed; eligibility; reporting; special tests and provisions applicable to each of its major State assistance programs as required by the State of Utah Legal Compliance Audit Guide for the year ended June 30, 2006. The City received the following major State assistance programs from the State of Utah:

B & C Road Funds (Department of Transportation)
Liquor Law Enforcement (State Tax Commission)

Our audit also included testwork on the City's compliance with those general compliance requirements identified in the State of Utah Legal Compliance Audit Guide, including:

Cash Management	B & C Road Funds
Budgetary Compliance	Other Compliance Requirements
Truth in Taxation and Property	Impact Fees
Tax Limitation	Uniform Building Code Standards
Liquor Law Enforcement	Purchasing Requirements
Public Debt	

The management of the City is responsible for the City's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures disclosed immaterial instances of noncompliance with the requirements referred to above, which are described in the accompanying schedule of findings. We considered these instances of noncompliance in forming our opinion on compliance, which is expressed in the following paragraph.

In our opinion, Murray City Corporation, Utah, complied, in all material respects, with the general compliance requirements identified above and the requirements governing types of services allowed or unallowed; eligibility; reporting; and special tests and provisions that are applicable to each of its major State assistance programs for the year ended June 30, 2006.

Hansen, Bradshaw, Malmrose & Erickson, P.C.

November 8, 2006

MURRAY CITY CORPORATION
Schedule of Findings
Year Ended June 30, 2006

Requirement/Program

Current Year Findings

1. Fund Balance

Finding: Unreserved fund balance in the General Fund can be up to 18% of the budgeted revenues of the fund. At June 30, 2006, unreserved fund balance is 21.7% of 2006-2007 budgeted revenues.

Recommendation: The City should amend the current year budget as necessary and appropriate the excess fund balance.

Management's Response: The City will appropriate the excess fund balance in the fiscal year 2007 budget.

2. Justice Court

Finding: State law requires the State Surcharge report be filed by the 10th of each month. In nine of the twelve months, the report and related funds were filed late.

Recommendation: We recommend the Court Clerk generate the report timely and request a hand write check, if needed, from accounting in order to ensure the report is filed timely.

Management's Response: The Justice Court will generate the required reports and make the appropriate payments by the 10th of each month.

3. Deficit Fund Balance

Finding: Under State law, deficit fund balances in any fund are illegal. We noted deficit fund balances in the Central Garage Internal Service Fund of \$76,885 and \$32,217 in the Telecommunications Fund, as of June 30, 2006. This deficit resulted in the City's noncompliance with State of Utah fund balance requirements.

Recommendation: We recommend management review the budget of these funds and take appropriate action to eliminate these deficit fund balances in accordance with State of Utah legal compliance guidelines.

Management's Response: The City will make the appropriate revenue adjustments to eliminate the deficit fund balances in the next fiscal year.

MURRAY CITY CORPORATION
Continuing Disclosure-Impact Fee Collection and Use for Enterprise Funds
Fiscal Year Ending June 30, 2006

Revenues:

Water impact fees	\$ 185,518.28
Waste water impact fees	\$ 111,134.40
Power impact fees	<u>\$ 271,960.94</u>
Total revenues	\$ 568,613.62

Expenditures:

Water pipe replacement	\$ 185,518.28
Construction & Improvement CVWR	\$ 111,134.40
138KV line upgrade	<u>\$ 271,960.94</u>
Total expenditures	\$ 568,613.62

Impact fees are collected and used on a city wide basis.

Sources of General Fund Revenue

Set forth below are brief descriptions of the various sources of revenue available to the City's general fund. The percentage of total general fund revenues represent by each source is based on the City's audited financial statements for the year ending June 30, 2006.

Taxes--Approximately 73% of the general fund revenues are from taxes (approximately 66% from sales and use taxes; approximately 20% from general property taxes; approximately 14% from franchise taxes.

Fines and Forfeitures--Approximately 7% of general fund revenues are collected from fines and forfeitures.

Charges for Services--Approximately 6% of general fund revenues are from charges for services.

Intergovernmental Revenues--Approximately 6% of general fund revenues are from state and federal grants and shared revenues.

Licenses and Permits--Approximately 5% of general fund revenues are from licenses and permits.

Interest--Approximately 2% of general fund revenues are from interest income.

Miscellaneous Revenue--Approximately 1% of general fund revenues are from miscellaneous revenues..

System Rates

Rates fixed and charged for the energy distributed by Murray City Power are recommended by the Power Advisory Board and established by ordinance by the Mayor and City Council. Rates for electric service to customers of Murray City Power are not subject to approval of any Utah or federal regulatory body.

The Department last implemented a 16.4% rate increase in April 2002. The unit costs and average monthly billings for most residential and commercial customers under current rates are as follows:

Residential

Customer Charge:	Per meter, per billing period	\$2.79	
Energy Charge	Summer (Apr. 1 thru Sept. 30)		
	All KWh, Per KWh:		\$0.0741
Energy Charge	Winter (Oct. 1 thru Mar. 31)		
	First 600 KWh, Per KWh:		\$0.0741
	Excess KWh, per KWh:		\$0.0506

Residential (All Electric)

Customer Charge:	Per meter, per billing period	\$2.79	
Energy Charge:	Summer (Apr. 1 thru Sept. 30)		
	All KWh, per KWh:		\$0.0698
Energy Charge:	Winter (Oct. 1 thru Mar. 31)		
	First 600 KWh, per KWh:		\$0.0605
	Excess KWh, per KWh:		\$0.0400

Commercial (General Service Small)

Customer Charge:	Per meter, per billing period	\$6.98	
Energy Charge:	First 1500 KWH, per KWH		\$0.0757
	All additional KWH, per KWH		\$0.0384
Demand Charge:	All KW above 5 KW, per KW		\$9.89

Commercial (General Service Large)

Customer Charge:	Per meter, per billing period	\$17.46	
Energy Charge:	First 1500 KWH, per KWH		\$0.0648
	All additional KWH, per KWH		\$0.0356
Demand Charge:	All KW above 5 KW, per KW		\$10.19

AVERAGE MONTHLY BILL AND CONSUMPTION

	<u>Summer Bill</u>	<u>Summer KWH</u>	<u>Winter Bill</u>	<u>Winter KWH</u>
Residential	\$ 60.21	779	\$ 47.18	651
Residential (All Electric)	54.66	776	61.75	1,238
Commercial (General Service Small)	142.16	1,673	130.21	1,499
Commercial (General Service Large)	2,747.63	42,557	2,444.78	37,764

Bills for electric service are prepared and mailed by the City administration on a monthly basis. Second and third notices of non-payment are given 50 and 58 days, respectively, after the date of the initial bill. Electric service is terminated between 60 and 76 days after the date of the initial bill.
